

Setting Up Sunday Streams on Roku

The menu/wording may be slightly different depending on your TV

1. Open your TV menu. You are looking for “Channels” or “Streaming Channels” (or Roku App/Roku channels)

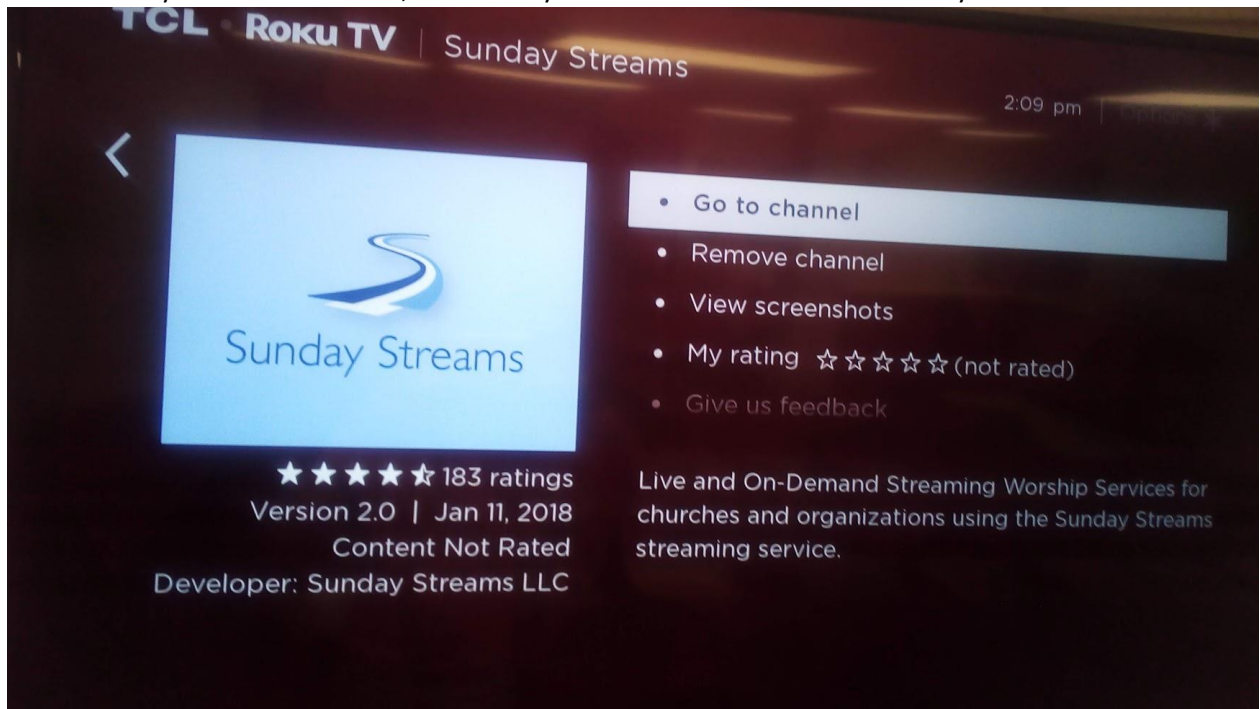

2. Find the “search channels”

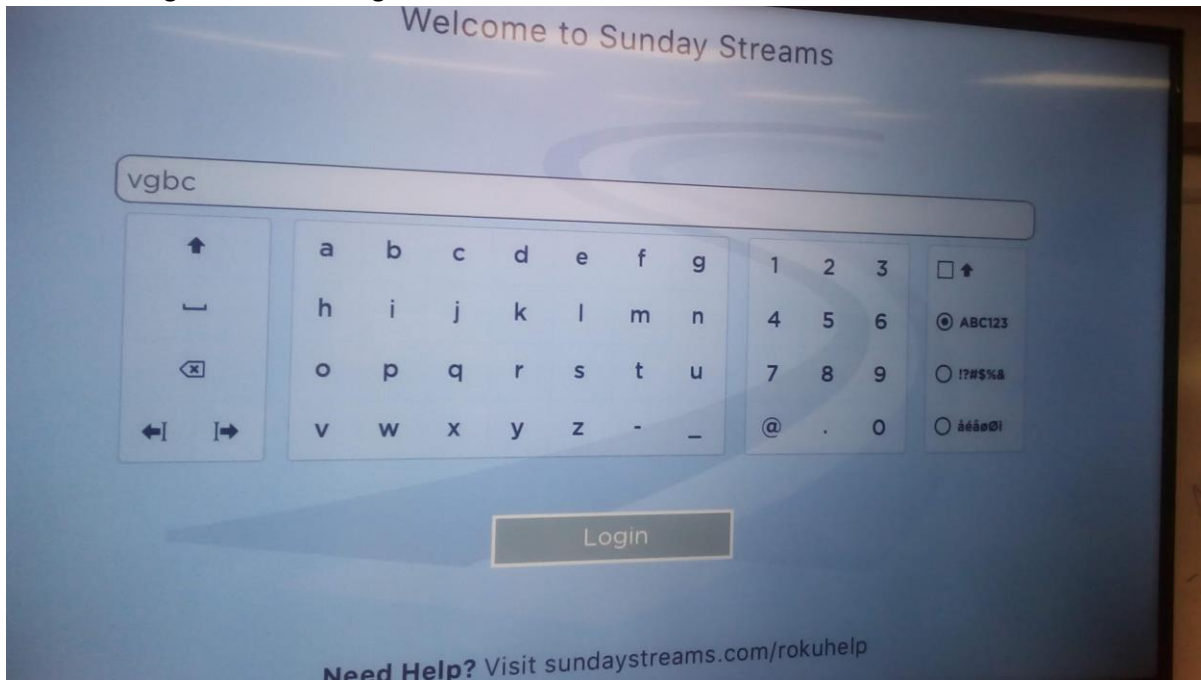

3. Search "Sunday Streams"

4. I have already added the channel, so mine says "Go to channel" Yours should say "Add Channel". Click it

5. Our streaming Id is "VGBC". Login

6. You did it! Now the channel is added and will be listed under "Recent channels" from your main menu. Depending on your tv, you can also add it to "Favorites" and click there as well!
